

# 4 Simple Ways to Create Healthier Workplaces and Schools

Let's work together to make our workplaces and schools healthier! We've got four easy ways for employers, employees, and the community to help reduce the spread of infectious diseases and make our workplaces and schools healthier.

01

## Employers' Health and Safety Rules

Employees Following Them

### SAFER WORKPLACES

When employers implement occupational and environmental health and safety policies, and everyone follows them, workplaces become healthier and safer for everyone.

02

## Community Support

Organizations Talking Openly

### A HEALTHIER WORKFORCE

When our community helps out, and organizations are clear and outspoken about workplace health best practices, we all get healthier – at work and home.

03

When we all learn about staying healthy and join in on community health programs, we all feel better and are more productive.

## Community Health Programs

Employees Learning About Health

### HEALTHIER WORKERS

04

## Employers Providing Regular Training

Employees Joining In

### SMARTER, HEALTHIER WORKPLACES

When employers regularly train their staff in workplace health and safety, and employees actively engage, our workplaces become smarter about staying healthy and safe.

But wait, there's more you can do!
